

International symposium

CONDITORIA PROVINCiarUM. ROMAN SARCOPHAGI IN THE PROVINCES USE, MATERIALS, CONSERVATION AND VALORIZATION

Trier Universität

September 15th - September 17th 2022

The study on Roman sarcophagi has been enriched in the last decades with new contributions on its use and diffusion in the provinces, on the application of color on their reliefs, on types of stone materials and elaboration systems, as well as on the contexts in which they were placed for honor the deceased. In line with these advances, the project HAR2017-84907-P *Roman sarcophagi in the Iberian Peninsula. Art-chaecology, archaeometry and conservation / restoration*, granted by the Spanish Ministry of Science and Innovation and directed by the Universitat Autònoma de Barcelona, has focused on the sarcophagi of the provincial territory of Hispania, in order to obtain overall conclusions about their use in Roman times and its valorization from Late Antiquity to the present day.

Within the framework of this project and the Netzwerk zur Erforschung der Iberischen Halbinsel in der Antike TOLETUM, it will be held the **International Symposium CONDITORIA PROVINCiarUM. ROMAN SARCOPHAGI IN THE PROVINCES. Use, materials, conservation and valorization**, which will take place at the Trier Universität (Trier, Germany) from September 15 to 17, 2022.

With a marked interdisciplinary and transversal orientation, the symposium will promote a forum for debate between experts in various archaeological, historical, philological and scientific specialties, in order to share the study methodologies and strategies that they are applying and promote a broader and more complex knowledge on the three thematic areas that this meeting will tackle:

1. Roman sarcophagi in the provinces: use, iconography, production.
2. Roman sarcophagi in the provinces: Archaeometry, conservation and restoration.
3. Reuses and valorization of Roman sarcophagi in the provinces throughout their history.

This meeting also aims to provide a framework for learning about and disseminating these advances, aimed at both undergraduate, master's and doctoral students, as well as the public interested in these aspects of our history.

PROGRAMME

Thursday, September 15th 2022

9:00-9:15 Registration

9:15-9:45 Presentation S. Panzram – M. Trunk – M. Claveria

9:45 – 10:30 Opening conference
